

Construction and Demolition Recycling Training Program

Hosted by Waukesha County

Tuesday, September 9

Waukesha County Administration Building (515 Moreland Blvd., Waukesha)

9 a.m. – 4 p.m. (please check in from 8 – 8:45 a.m.)

REGISTER ONLINE AT www.wastecapwi.org/training

More than 250 construction, demolition and waste professionals from 14 states have become WasteCap Accredited Professionals. Across the state and nationwide, owners are requiring construction waste recycling as a part of sustainable building. Contractors who know how to recycle will be at a market advantage. Reduction, reuse and recycling is allowing contractors and owners to use projects funds for building instead of waste disposal. This training will give you the skills you need to develop, manage, monitor, document and promote a successful recycling program for construction and demolition debris. It also provides training to obtain LEED (Leadership in Energy and Environmental Design) points for construction waste management.

Contractors, developers, haulers and owners should attend and will benefit from this training. Upon completion of the training, you will be awarded with **three-year WasteCap Accreditation** in construction and demolition waste recycling through WasteCap Wisconsin. All attendees will receive a comprehensive toolkit containing sample contract language and specifications requiring recycling, recycling market information, monitoring checklists and worksheets for conducting economic analysis as well as WasteCap Wisconsin's training video highlighting important information on material-specific recycling for construction and demolition projects. **REGISTRATION IS LIMITED AND CLOSSES September 2.**

Cost: \$550/per person (\$400 for WasteCap Wisconsin Members and Waukesha County invited guests)
